Name of beer Black my IPA

Type of beer Black IPA/Cascadian Dark ale

Description This is not our first time brewing a black IPA, but it may be our best rendition yet. Hopped with Pekko, Chinook, Amarillo and Nugget for a blast of IBU's and aroma laid on top of a chocolatey, roasty winter warmer. Just because its cold here in Wisconsin doesn't mean we can't drink like folks out on the West coast. Get your winter IPA on!
