

New Product Sell Sheet

Name of beer	Spike's Maple Ale
Type of beer	American Strong Ale
Description	Maple sap instead of water? Yep! It may sound crazy, but we start this big beer off by actually replacing the water we would normally use to brew with 100% pure maple sap, right out of the tree. The natural sugar content of this sap boosts the ABV of this beer to 10% and is the backbone of a malt forward sipper that starts off fruity on the nose with a very pleasant mouthfeel unique to beer brewed with 100% maple sap. A medium body accompanies complex malt and earthy flavors derived from the sap and finishes up on the palate with that classic maple flavor we all love. Get some while it lasts, we can't make any more!
ABV%	10%
OG/FG	21.5/3.5 Plato
SRM	5
IBU	30
