

New Product Sell Sheet

Name of beer Hibiscus Honey Sour

Type of beer Belgo Honey Sour with Hibiscus

Description O'so is steadily becoming one of the premier producers of sour beers in the state of Wisconsin and this beer solidifies that reputation. Light bodied and refreshing tartness with gobs of hibiscus and a hint of honey on the nose lead to a rich mineral quality that pours red. Fermentation with Belgian yeast add to the complexity. Expect your customers to say "Wow, what beer are you having?" when they see the striking red hue. Great for the start of the long awaited Summer heat. Would you expect anything less from O'so?
